

Industry Press Release: Novatech achieves ISO 9001:2000 Certification

CHINO, Ca – January 8, 2004 – Novatech Electro-Luminescent Inc., a leading U.S. manufacturer of electroluminescent lighting and electroluminescent technologies, today announced it has achieved official International Standardization Organization certification as an ISO 9001:2000 compliant company.

Novatech President and CEO, Philip Chan, commented, “This achievement represents our commitment to manufacturing excellence and to ongoing development of our quality management system.”

ISO 9001:2000 certification is the most recent ISO standard and is the most rigid developed to date. By meeting this standard Novatech has once again established a position of industry leadership.

About ISO

The ISO (International Organization for Standardization) is the source of the ISO 9000 and ISO 14000 families of quality and environmental management standards and some 14 000 International Standards for business, government and society. ISO is a network of national standards institutes from more than 140 countries working in partnership with international organizations, governments, industry, business and consumer representatives.

About Novatech

Novatech is a leading edge manufacturer of electroluminescent (EL) lighting systems for the automotive, cell phone, keypad, consumer electronics, apparel, and signage industries. Electroluminescence is the preferred backlighting choice for engineers and industrial designers due to its thin profile, low power consumption and uniform brightness. Novatech’s patented roll to roll automated manufacturing process ensures that customers will receive a high quality product, on time delivery and a lower cost. More information about the company and its products can be found on the Company’s website www.NovaEL.Com
